AirGuard

Portable Air Quality Box

7" Backlit Color Display

Bullard AirGuard Highlights

Bullard AirGuard takes monitoring your breathing air into the 21st Century with its extra-large 7"color LCD screen. Now you can clearly see the status and quality of your breathing air. Workers love its battery operated function making it portable and convenient for any job, anywhere.

Its three stage filtration system and CO monitor ensure safe and purified breathing air. With step by step calibration instructions and data logging at your fingertips, the Bullard AirGuard takes the worry out of staying OSHA compliant. Meets OSHA/NIOSH point of attachment requirements.
